

A large background image showing an arborist in an orange safety vest and yellow helmet working on a tree. The arborist is using a yellow tool to cut into the trunk of a tree. The scene is set outdoors with green leaves in the foreground.

Build Your Career
With an industry leader

Why choose to work with Treescape®?

One of our cornerstone beliefs is to show respect for the natural world, our environment and country.

You will be joining the like-minded people who share our strive to create a sustainable and renewable environment for future generations.

You can shape your career path how you like it. Whether you're looking for a graduate opportunity, a career in arboriculture, or wish to progress your professional career further, we have an option for you.

Choose what suits you best:

- Arboriculture
- Ecology & Environmental Management
- Utility Arboriculture
- Grounds Maintenance

All services are undertaken across commercial, council, transport and private sectors.

What's in it for you?

- A safe and healthy work environment
- Great remuneration
- Work with leading edge technology and innovation
- On-job training and NZQA recognised qualifications
- Fantastic opportunities for career progression
- We can help you build a career that fulfils your potential, and not just a job

Working with us will provide you with variety, challenging work and opportunities that will accelerate your career. Our motto is Safety Always - therefore we need you to have an ability to follow the highest standards of workplace safety at all times.
